Kutch	9	13	116	128, 129, 156, 160
Manipur	9	13	116	156
Tripura	9	13	118	156
Vindhya Pradesh	9	13	120	132, 156, 164

This volume is presented as a supplement to the First Five Year Plan. It contains information relating to development expenditure under the Plan and its progress at the Centre as well as in the States. It also contains information pertaining to the principal development schemes included in the Five Year Plan. All irrigation and power schemes, whether Central or State, are shown together in one Statement. In other fields of development, for Part A and Part B States, schemes involving expenditure in excess of Rs. 10 lakhs and, for Part C States, schemes involving expenditure exceeding Rs. 5 lakhs, have been listed. In addition, there are a number of smaller schemes in the States which are not separately indicated here. As the Plan proceeds, it is hoped to publish from time to time similar data concerning the progress of individual development schemes in the Central Government and in the States.

December 7, 1952.

*In the case of projects whose power is fed into an existing power system, the firm power of the entire power system has been indicated with the corresponding anticipated load on the system as a whole. Load surveys have been carried out by the Central Water & Power Commission for the multi-purpose projects but in the case of the State power projects, the anticipated load figures are as furnished by the respective State governments.
